

Salamander Satellite EAC-ACT

Temperature
RFID Card Reader
Electronic locks

Web Interface
Rack Dashboard

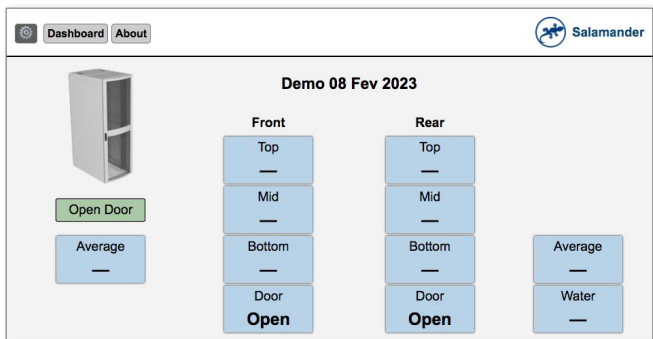

The **Salamander Satellite EAC-ACT** enhances the Salamander ecosystem, serving as a standalone Environment and Access Control controller or integrating into a broader network.

Key Features & Capabilities

- **Seamless Connectivity:** Deploys easily via built-in Wi-Fi.
- **Environmental Monitoring:** Supports digital temperature sensors.
- **Access Control & Security:** Compatible with RFID card readers and a wide range of door locks.
- **Centralized Management:** Configured and monitored through an intuitive web browser interface.

Typical Applications

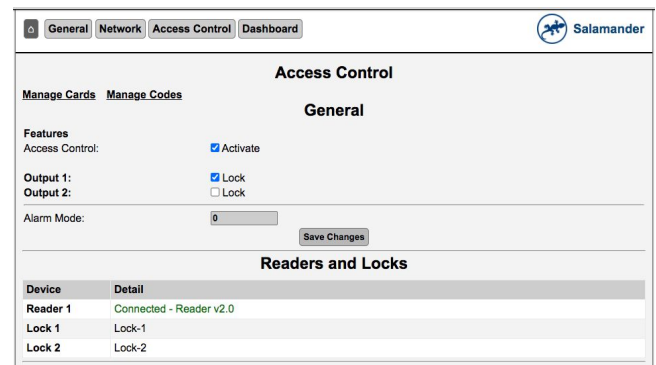

- IT rack cabinet access control
- Remote site environmental monitoring and security

Specifications

The unit supports up to:

- 6 temperature sensors
- Relay output 2A for door locks
- One proximity card readers.
